

# CSSI CLOUD SERVICES

**What is CSSI Cloud Services?** In 2017 CSSI's cloud hosting provider, Cygem, merged with CSSI. CyGem had been providing services to the investment advisory business since 2005. The combined firms under the CSSI name offer a high quality cloud and application hosting service.

**What are my options?** CSSI offers three different Cloud Services solutions:

- Private Cloud
- Data Backup/Disaster Recovery/  
Business Continuity
- Hosted Exchange

**What does Cloud Services change?** Depending on the solution you pick it could change a lot. The biggest change is that your firm is using top tier equipment managed by experts.

## Common Solution Features:

- **SEC Compliant.** Completely SEC compliant and backed by a SAS 70 Type II auditing statement.
- **Automated Data Backup & Data Restoration.** All Data is automatically backed up every 15 minutes.
- **Disaster Recovery/ Business Continuity.** Also includes an automatic fail over.
- **Ongoing Support & Software Updates**
- **Private & Secure.** Meets all security compliance regulations.

1

**Private Cloud:** A private cloud is a customized solution fitted to your firm's needs. The private cloud changes with the needs of your firm so that you can grow or shrink your capacity as needed. The private cloud runs on today's latest technologies. Your firm is not responsible for the upkeep.
